

## Roebuck Close Luton

**Market Sector:**  
Residential

**The Client:**  
Wates

**Services supplied:**  
Internal doors, skirting & ironmongery

### THE PROJECT

Working for Wates, we fitted internal doors and kitchens (doors, skirting, architraves and ironmongery) on 110 new-build houses in Luton, a mixture of private and social housing. Our team of a project manager and six joinery specialists worked over 30 weeks.

### THE PROCESS

Our key challenge here was managing the materials: because of the pace of the project and the need for bulk deliveries, we found ourselves using finished, fitted-out units to store doors until the next plot was ready for their installation.
