

Finsbury Park London

Market Sector:
Student Accommodation

The Client:
Watkins & Jones

Services supplied:
Carpentry & joinery

THE PROJECT

We fitted out the doors on this block of student flats, working for Watkins & Jones. The four-storey block comprised around 200 units and we worked over 25 weeks during the summer.

THE PROCESS

Each flat required a main lobby door, then six bedroom doors internally. The doors were standard veneered units. The big challenge here was the size of the project – although the contractor supplied the doors and we simply fitted them, there were so many doors required on each flat.

For further information on our carpentry and joinery services, or for an informal discussion about your project requirements please contact us directly:
