

## Colindale Barnet

**Market Sector:**  
Commercial

**The Client:**  
Galliford Try

**Services supplied:**  
Carpentry & Joinery

### THE PROJECT

We were contracted by Galliford Try to fit all the internal doorsets, ironmongery, 21 kitchenettes, all the skirting, toilets (including toilet roll holders, grab rails and mirrors) and parts of the reception area for this nine-storey new-build office block that will be used by Barnet Council.

### THE PROCESS

We fitted panelling and a desk in the reception area, using oak veneer and walnut veneer. The office block is close to the RAF museum at Hendon so this theme is echoed in the reception panelling with a pattern in the oak veneer that replicates the structure of an aircraft wing.

For further information on our carpentry and joinery services, or for an informal discussion about your project requirements please contact us directly:
